Crystal Palace, Vital Energi [Sports Centre] - UK

NISSEN Energy has delivered, installed and started a CHP-unit for the Crystal Palace National Sports Center in London. This order was one of several gas engine units delivered to [Vital Energi](http://www.vitalenergi.com).

The plant is based on a 420 kW MAN E2842LE322 gas engine, and has an electrical power of 400 kW and 513 kW of heat output.

The plant is supplied as a complete module incl. board system with NISSEN Engine Control, NEC Vision control system for control and monitoring of the plant.

Crystal Palace National Sports Centre was used as a training center for the Olympics 2012.
