

SELECTED CASES

Regionshospitalet Viborg [Hospital] - DK

NISSEN energy was one of the many pieces in the puzzle, when the Region Hospitalet Viborg was expanded and rebuild for Kr. 1.15 billion. The order was issued by Schneider Electric, who was responsible for the ESCO co-operation with the Region Hospitalet Viborg

The order included delivery, assembly and commissioning of 1 pc. 210 kW gas engine based on our MAN E 2676 LE 212 gas engine. This engine replaces the previously delivered MAN E 2842 E.

Included in the order was removal and removal of existing control panel, engine and fan in the bulldozer. Included was also the installation of a new inlet ventilator for the ventilation of bulldozer.

NISSEN energy performs service and maintenance on the equipment of the plant.
